## **Betrifft: Certificate of employment**

To whom it may concern,

This is to certify that Mr Ousama Kamal Andari, born 04.06.1997, was working as a working student at Soba Studios GmbH from 04.10.2021 to 31.08.2022.

Soba is an online multiplayer virtual world and gaming platform with no-code game making tools built on the open web3 ecosystem. At Soba we believe in a world where making games and building experiences is available for everyone, on every platform, not only to professionals using complex tools on PCs; and where the economics are fair and support creators. Soba was founded in 2019 and is headquartered in Berlin, Germany.

During his time as a working student, Mr Andari shouldered multiple responsibilities and completed tasks of various natures.

Mr Andari's core tasks included the following activities:

- Working along the product team and engineers on building maps for the Soba community to play and get inspired from.
- In addition to reporting issues, bugs and errors while testing the product features/tools to improve the product.
- Helped conducting multiple user interviews for getting feedback and improve the product.

- Worked on producing educational content for new users by creating content on the company's social media platforms to help onboard and guide users to start using the product.

Mr Andari always convinced with his own initiative and great commitment. Mr Andari is a great team player and engaged actively in the team discussion and project development. He also demonstrated great work ethics and high productivity throughout his time as a working student.

For his professional future we wish all the best and much success.

Best regards,

  
Dr. Florian Odronitz

Soba Studios GmbH  
Tempelhofer Ufer 32  
10623 Berlin
